the Bulletin office.

Having been appointed to the position of District Superintendent, for the Territory of Hawaii, by the Mutual Life Insurance Company of New York, we have opened offices in Honolulu, and will take formal charge of the Company's business March first, after which date all payments of Premium by policy holders, the payment of Death Claims and Matured Endowments are to be made at the Company's office at 932 and 938 Fort street.

The modern contracts issued by the Mutual Life, offer larger guarantees than do those of other companies.

THE COMPANY FINANCIALLY UNASSAILABLE.

Remember that, with all the reckless talk in the newspapers about syndicates and salaries and subsidiary companies, the securities of the Mutual Life have not been criticised nor their perfect safety questioned. The investments of the Company were an open book in the hands of the Investigating Committee; every loan, book in the hands of the Investigating Committee; every loan, every bond, every security of any description was before them—four hundred and fifty millions and more; and not a single item was discredited, and not a single investment of any sort was classed as doubtful.

As ever, the Mutual Life is still the strongest financial insti-

tution in the world, with a reserve \$36,000,000 larger than that of any other existing company, and with a contingent guarantee fund, or accumulated profits, of \$75,000,000 in excess of its legal

It is still true, as it has always been, that the Mutual Life has paid more TO policyholders, and holds more today FOR policyholders than any other company in the world. Nearly seven hundred millions to date has the Company disbursed to its members and their beneficiaries, making, with what it still holds for them, nearly one hundred millions more than it has received from them.

You are cordially invited to examine our contracts and satisfy yourself that we Guarantee more in insurance protection to your family and estate and to return more in cash as an investment for your old age than do other companies.
